Table autosized based on style "height" and "width" using "tableAutoSize:true" option:

| height:100px / width:250px | height:100px / width:'auto' |
|---|---|
| Here "<td width="100">" will use 250px for the width because we have to use the largest col's width | height:200px / width:'auto' |

Change the table's layout (header with red border, body with blue border):

| Header A | Header B |
| --- | --- |
| A1 | B1 |
| A2 | B2 |
| A3 | B3 |
